Mentor Teacher Jaclyn

Hi Families,

I'm Jaclyn, **Lead Preschool Teacher** at the Maple Leaf South Campus and **Mentor Teacher** at our Greenwood Campus! I've been working with children and families since 2003, and I'm thrilled to have been working with our Nurturing Knowledge community since 2013.

I discovered my passion for Early Childhood while accumulating volunteer hours some years ago ... and I immediately felt a genuine connection with young children and their families. I witnessed first hand how children learn and develop through discoveries in their surroundings, and through opportunities that are provided for them. I love seeing their little eyes brighten when they make scribbles, or tell a story of their favorite outing!

I believe that children of all abilities learn through play, peer interaction, and learning adventures. As an educator, I want to provide successful learning pathways for all children. I want to teach children to enjoy their learning adventures, and feel confidence within themselves. I want to embrace their learning, and learn from them, while providing opportunities for them to become active and capable learners. I love to see their beautiful smiles, as they discover and grow!

Personally, I'm a proud mommy to a high schooler. My family and I enjoy spending time outdoors, camping, hiking, or just lounging at the beach. I enjoy reading, being silly with my daughter and husband, seeing movies, and spending time with family and friends.

I look forward getting to know you, and beginning our positive adventures together. We have amazing teaching teams at our campuses, offering teaching styles that flow and intertwine with one another ... each one of us is totally excited for every new day. I have an open door policy, and I am available at all times for questions, thoughts, sharing stories ... and smiles.

Warmly,

Teacher Jaclyn
(she/her)
